

Construction Administration

Keeping All Parties on Track

ANTIOCH International's construction professionals offer a diverse expertise in design, construction, and management of the construction process. We deliver experienced supervision and utilize proven management principles to assure projects are completed on time, on budget and within quality standards.

Service Offerings

- Complete construction without any track work deficiencies which delay approval by main line carrier
- Quality control & construction observation
- Schedule & budget management
- Change order management
- Coordinate project changes to avoid costly impacts to rail design

Higher Quality Standards

Our responsive approach to client needs combined with the strength of our strategic alliances helps Antioch stand out from the competition and yields tangible, measurable results for our clients. Throughout the years, our firm has successfully performed projects that have involved a complex level of design, phasing, safety, scheduling and budget management. We not only promote a higher standard of quality – we perform it in everything thing we do.

- Flexible menu of services to meet project needs
- Weekly declaration of claims for extra work to prevent conflicts at project completion
- On-time/on-budget focus insuring track work is completed in accordance with all project specifications
- Appropriate licensing and credentials for projects throughout the country

Value

is the driving force
behind our plans
and the defining
factor of our
company.
